LinkedIn: [linkedin.com/in/janet-johnson-oj](https://www.linkedin.com/in/janet-johnson-oj)

I'm a detail-driven data analyst with a strong finance and accounting background, skilled in transforming raw data into actionable insights that support business and product decisions.

With hands-on experience using Power BI, SQL, Python, and Microsoft Excel, I possess a strong ability to clean, analyse, and visualise data through interactive dashboards and executive reports. I translate complex data into clear, measurable KPIs that drive smarter decision-making.

Overall, I'm passionate about solving problems, uncovering trends, and helping organisations make informed, data-driven decisions.

EDUCATION

ALTSchool Africa

Certificate in Data Analysis

(2025–Present)

Yaba College of Technology

Higher National Diploma (HND), Accountancy

(2023–2025)

Yaba College of Technology

Ordinary National Diploma (OND), Accountancy

(2018–2021)

Tools

- Power BI Desktop
 - Microsoft Excel
 - PostgreSQL
 - Python
 - Jupyter Notebook
 - DAX
 - Pandas
 - Matplotlib
 - Google Sheets
 - PowerPoint
-

Skills

- Exploratory Data Analysis
 - RFM Segmentation
 - Revenue & Profit Analysis
 - KPI Reporting
 - Trend Analysis
 - Interactive Dashboards
 - Executive Reporting
 - Data Cleaning & Transformation
 - Data Querying (SQL)
 - Communication
 - Problem-Solving
 - Critical Thinking
 - Attention to Detail
 - Teamwork
 - Decision Making
-

PROJECTS

1. AdventureWorks Sales & Business Performance Analysis (Data + Business + Product)

Tools: Power BI, Excel, DAX, Python

- Analysed \$109.85M in sales data across FY 2011–2014 (32K orders, 19K customers) using the AdventureWorks dataset.
- Built a 3-page interactive Power BI dashboard covering Sales Performance, Product & Customer Analysis, and Operational Inventory.
- Identified that Bikes drive 86% of revenue but carry only 8.77% profit margin vs Accessories at 59.13% — recommended revenue mix shift.
- Uncovered 3 loss-making territories and flagged a below-cost product (Road-250 Black) requiring immediate pricing review.
- Delivered a 2-page executive summary with documented methodology, assumptions, and 5 actionable business recommendations.

2. Online Retail RFM Customer Segmentation (Data + Business)

Tools: Python, Pandas, Matplotlib

- Cleaned a 1M+ row retail transaction dataset — removed 59,005 rows of duplicates, nulls, cancellations, and invalid entries.
- Built an RFM segmentation model identifying 1,468 Champion customers with an average spend of £8,081.
- Flagged 2,039 At Risk/Lost customers for reactivation campaigns and 118 high-spend low-frequency customers for personalised outreach.
- Produced a 6-chart Python visualisation dashboard covering segment distribution, recency vs frequency, and regional breakdown.

3. Sales & Company Performance Analysis (Data + Business)

Tools: Power BI, Excel, PostgreSQL

- Cleaned raw sales data in Excel — removed duplicates, fixed missing values, and standardised categorical fields.
 - Conducted EDA to uncover customer ordering patterns, yearly sales trends, and departmental employee distribution.
 - Built interactive Power BI dashboards tracking KPIs across sales trends, product performance, and payment method insights.
-

CERTIFICATIONS

- Certificate in Data Analysis – ALTSchool Africa (2025–Present)
- Certificate in Data Analyst Track Training – Quantum Analytics NG (2025)
- Virtual Assistant & AI Starter Kit Certificates – ALX Africa (2025)
- Higher National Diploma (HND), Accountancy – Yaba College of Technology (2023–2025)
- Ordinary National Diploma (OND), Accountancy – Yaba College of Technology (2018–2021)

Internships

- Sona Plastics Limited – Intern (2020)
 - Ecobank Nigeria Ltd – Teller (2025–Present)
 - Capital Gee Ventures – Billing Officer / Customer Care Representative (2021–2023)
